ORGANIZED IDLENESS.

The Romans made their soldiers work during the intervals of war. All citizens were trained to arms, each ready to defend his country with his soul and life. Those not ready to sacrifice life, property and all, in defence of the country were not thought worthy to have a country.

A great portion of the able bodied men of this government were, for four years, engaged in war. Our government did not imitate the Romans and put the soldiers to work when the war was over. If the government had put Gen. Lee, Gen. Littlefield and Gen Abbott to work, it would have been better for the morals and the industrial interest of the country. These are all able-bodied men except Gen. Lee, they would make valuable hands on the heavy public works which are going on all over the North and Northwest. If these Generals had been put to useful work by the government, State bonds would not have fallen so low as 38, and no sales at that. The debt of $26,000,000, created for Railroads, would not have been made—There would have been no grog shop opened in the Capitol, and without Littlefield and the grog shop these bills calling for $26,000,000 could not have passed. The $2,000,000 appropriated to the Chatham Road could not have passed but for the fact that Littlefield was paid $100,000 as a fee, and the members of the Legislature received of Littlefield $10,000 or more gratuitously bestowed in the way of whiskey, champaign and cigars.

The real functions of Gov. Holden's secret societies are not known except to the Governor and the secretly initiated; the world knows nothing of its real functions and operations. It was not known until recently that the Governor was the President and Head Centre of all the organized secret societies in the State.

Illness is said to produce "want, vice and misery," unorganized idleness is a fearful thing in any government, neighborhood or community, but when organized it must be broke down or it will break down society and government itself. If the natural and appropriate punishment for idleness is poverty, ignorance, misery and want, surely Governor Holden has entailed them upon his oath bound secret Leaguers.

Every jail is crowded with the members of his secret societies, imprisoned mostly for larceny.

In London and Paris 'tis said they have schools where pocket picking and stealing is taught as a profession. One thing is certain if the Leagues do not teach larceny, they do not teach scorn and abhorrence for those who commit larceny.

A few days before the most important election ever held in North Carolina, Major Smith, who leased the Road, went in person to two or three counties and stood bail for the Governor's league friends who were in the custody of the law.

The Governor being President of the Leagues pardoned a number of his league brethren who were in jail for whipping a colored man for voting against the Republican party.

These organizations of idleness are supported by the State and Federal Governments for party purposes. The Bureau was one of the great means of concentrating and organizing the idleness of the South for party purposes. The only hope of the struggling Federal General who has squatted in localities where negro influence predominates, is to support and sustain the organized idleness of Governor Holden's secret Leagues. When they are dissolved and the carpet-bagger uses up his present supply of paper collars, he will take up his bag and walk. We tell them, that time is fast approaching. Littlefield, Abbott and company must cease to rely upon State bonds and the Legislature for their support. If they go to Florida again, they should be arrested, and on the vagrant act, for they have no visible means of making a living in that State, and from this State, we say, let all such begone.

GOING ABROAD.

An old Philosopher once sent his son abroad, that he might see and learn "with how little wisdom the world was governed."

There is no necessity for parents imitating this old philosopher, by sending their children out of the city. Let the nurses take the children up to the capitol to look upon the "assembled wisdom," and the children can learn all about it.

Carlile says "we are going to hell in America;" this is an ugly way for one of our cousins across the water to speak of us, if the people will quit following Governor Holden and the Radicals, we think they may escape.

This quaint old Englishman says, "to be governed by small men is not only a misfortune, but a curse and a sin, and the cause, too, of all manner of curses and sins." Alas! Thomas Carlile, that our people should feel so forcibly the truth of your saying.

THE GENERAL ASSEMBLY.

This august body was to have met for business on yesterday, but upon assembling and calling the roll, it was found there were only twenty Senators and forty-eight members of the House of Representatives present, consequently there was no organization in either House, for want of a quorum.

What Ass become of the hands? We suppose some of them were delayed in arranging affairs in the other offices held by them, while one, at least, has to wait for Congress to remove his disabilities, he having been converted and elected since the last Congressional scrubbing.

Of course, those not present to-day will not think of charging the State for their valuable services for the day, when they come to draw their *per diem*. Such a course would be so foreign to their *usual practice* as to subject their conduct to animadversion and censure.

A number of the members having accepted office under the General Government, and having also taken an oath to support the constitution of this State and laws made thereunder, which forbid the holding of office or place of trust, honor or profit under *both* at the same time, will *of course* resign *immediately*, that their places may be filled at the earliest practicable day. The wonder is, that they have not done so before.

We suppose they will get regularly to work at farthest by the day after thanksgiving.

INSURRECTION AND REBELLION.

The Republican outbreak in Spain, in October last, threatened to be a gigantic affair; the number of insurgents were reported at 20,000. The town of Reus proclaimed the Republic. Valentia also stood a short siege. Eighteen hundred insurgents surrendered to Gen. Baldrich. About the same time some alarm was created in France, but the imperial guard soon quieted the discontented.

Lopez raised the standard of insurrection in South America, and after many vicissitudes, seems to be holding his own pretty well, with fair prospects of success.

We have no recent intelligence from the revolted provinces of Jones, Chatham, Lenoir and Orange, declared in a state of insurrection by the Governor. A part of the United States army, after the Governor's threat and proclamation, reached Chapel Hill, which was supposed to be the strong hold of the insurgents. The arrival of the troops made little impression on the insurgents. Two of the students quit the University. Professor Martin's books were put to bake in the stove. The students refused to eat of his "possum" supper. They assaulted the Professor in the face of the troops. They gathered blue huckets of acorns and as Martin entered the sacred walls of the Institution they pelted him with these minnie-like missils. The students retreated to a room on the second story in the East building. Martin made an unsuccessful effort to storm them, he struck the door with violence and commanded the students to open the door, or he would report them to the Faculty. The door did not open, then he said in a pacific tone, if the door was opened immediately the breach between himself and the insurgents could be amicably arranged.

We see no necessity for further action of the troops at Chapel Hill. We hope the military will refer the matter to the Trustees of the University, who are to meet on to day, (Tuesday,) according to programme.

POLITICAL DISABILITIES.

The *Standard* is greatly exercised in regard to the removal of political disabilities; they must all be removed, and every white man that has been banned by the Radicals heretofore, must be raised at once to political equality with the negro. In connection with this subject, that paper announces the enfranchisement of Mr. Patrick McGowan, who has just received the pardon of all his political sins, (if he had any) and a restoration to all his rights as a citizen. But how is this? Congress has the sole right to remove disabilities, and Congress is not in session. If Congress removed Mr. McGowan's disabilities before the adjournment, where has the papers been all this time? We think we see the print of the Governor's finger in this matter. When he was Provisional Governor he kept back the pardons of several persons after they had been forwarded to him for delivery.

The Governor has been trying very hard to make Patrick McGowan a Radical, but we believe the metal was a little difficult to bring to the right heat. Patrick is an honest Irishman and can't well harmonize with Radical corruption.

In regard to the removal of disabilities, so strenuously urged by the *Standard*, the thing would have been done long ago, but for such carpet-baggers as Heaton, Abbott, Ludlin and Estes, and the personal malignity of the *Standard's* master, Governor Holden. We know there was, on the part of the Northern members of Congress, a liberal sentiment on the subject of the removal of disabilities, until the carpet-baggers arrived in Washington, last winter.

Some low-strung natives are, to day, paying court to Heaton and Abbott to get their disabilities removed, and these carpet-baggers rejoice to be thus socially recognized; while these same carpet baggers, Heaton and Abbott, will not recognize them as political equals. We have no hesitation in saying, even at the risk of being called "disloyal," and "rebel," that the man who will take by the hand and recognize socially, Heaton and Abbott, and others of their stripe, while Heaton, Abbott and Company deny him political association on terms of equality, is a creature so low and so destitute of the instincts of a man, that he deserves that the "slow, unmoving finger of scorn" should be pointed at him wherever he goes. Down with all such natives, who are so insensible to their degradation and shame.

Louisville makes one thousand barrels of flour per day, and 2 460,000 gallons of whiskey per year.

For the Sentinel.

MISS ALEXANDER, THE ACTRESS.

This beautiful young lady and *debutante*, whose appearance on the stage and in social circles, during the past week, was so cordially and enthusiastically greeted, is a native of Charlotte, N. C. Her father was the late Hon. *Wm. Julius Alexander*, formerly Speaker of the House of Commons in this State, and for a long time Solicitor of the old 6th Judicial Circuit. He was one of the most popular and prominent men of his day and had all the advantages of family, wealth, talent and education, to give him promise of the highest distinction.

Her estimable and accomplished mother, who yet lives, is the daughter of the late *Hon. Joseph Wilson*, for so many years the ablest and most efficient Solicitor of the "Western Circuit," extending from Salisbury to the Tennessee line. He was the most distinguished criminal lawyer, of his time, in North Carolina, and was a terror to all evil doers in that vast extent of territory.

Through these channels Miss Alexander is intimately connected with several of the best and most widely known families in North Carolina. Such as the Hendersons, the Caldwells, the Alexanders, the Wilsons, &c., &c. Her aunt, Miss Laura Wilson, for whom, we suppose, she was named, married a most talented and promising brother of President Polk, whose early death was mourned by so large a circle of friends and admirers in North Carolina, and whose only son, Gen Marshall T. Polk, reared under the care and patronage of his uncle, the President, is now living in Tennessee.

With such antecedents, and under the peculiar and very often false notions of Americans about the "Stage" and "Theatrical life," it required the highest moral courage on the part of Miss Alexander, to enter upon this career. But she found a sufficient and laudable motive in the pious duty of contributing to the support of an aged and widowed mother. Under the auspices of Mr. Ford, the well known Manager, himself of high social position in Baltimore, and a public tendency to that whole community, by his numerous and large charities, and spirit of public enterprize, we doubt not that Miss Alexander will succeed. She is highly gifted and accomplished—has great perseverance and a noble pride of character, with a just appreciation of her position. With these qualities and a most captivating manner and address, she will succeed, and pass unharmed, the trying ordeal of the Stage.

May an intelligent and appreciative public greet her *acceptably*, and give her such a reception—a *real ovation*, as she had the good fortune to meet with here, among the best people of the "City of Oaks."

H. H. Arnold, colored, of Alexandria, Va., has been appointed a messenger in the Treasury Department in Washington, at a salary of $80 per month.

The cholera is raging extensively in India. There have been 20,000 deaths per month in the central provinces during the season.

The Sultan is improving by the example of American civilization. He has suppressed the *Levant Times* for a month, because it was not sufficiently obsequious to his administration.

DESPERATE ASSAULT BY CONVICTS.—On Monday evening last, about sunset, five negro convicts, hired by the James River and Kanawha Canal Company, and engaged in working on the Pond above Ivey's Dam, five miles from the city, made a concerted and desperate assault upon the two guards who had them in charge, and escaped. One of the negroes had been using a "brist hook" in cutting down the weeds along the bank of the pond, and with this he assailed Mr. Brooks, one of the guard, inflicting a fatal cut on the head, and as is supposed mortally wounding him. The other guard, whose name we did not learn, was overpowered by these desperadoes, and his gun taken from him before he could fire it. Fortunately he escaped without being injured. The negroes then jumped into a canoe which was near by, crossed the pond, to the Amherst side of the river, and made their escape, and are still at large.—*Lynchburg News.*

A citizen of Knoxville, Tennessee, has invented a steam wagon. It is described as very ingenious. Mr. Savage the inventor, proceeds on entirely new and original principles from the very beginning—boiler, engines, frame work, and all appurtenances being to his own design and perfectly unique. The principal of propulsion is not by wheels, but by driving rods. Mr. Savage estimates that the locomotive, when complete, of three horse power, will cost about the same as a good team and wagon, will run ten miles an hour on common roads, and be serviceable for all kinds of work.

FROM POVERTY TO OPULENCE—A STRANGE BUT ALLEGED TRUE TALE.

The Altoona (Pa.) *Tribune* is responsible for the following story, which it pronounces true to the letter: A young man giving his name as Harry Stewart arrived in Altoona, not long since, in a state of complete destitution, and called upon Rev. Mr. Guyer, to whom he stated that his parents had died in Idaho, leaving him alone and penniless; that they had come from England and moved to Idaho when none but Indians infested that territory, and that he had never enjoyed any advantages of education save what his mother had given him. He had heard in Idaho that in Pennsylvania orphans were given education for nothing, and he drafted to reach Harrisburg to obtain an entrance to one of the state institutions of learning. The boy appeared ingenuous, and greatly interested Mr. Guyer in his behalf, who, took him to Mr. John Shoemaker's office. Mr. Shoemaker speedily obtained him a situation in Black's planing mill, but after working three or four hours he came back and stated that he wished to go on to Harrisburg. A pass to that place was procured for him, and he was sent on his way, those who had been willing to befriend him soon forgetting all about him in the busy cares of life.

While in conversation with Mr. Guyer, the boy had stated that his mother had left him some papers which she declared were very valuable, but which he could not read. When in Harrisburg a sudden thought struck him, and he entered the law office of Mr. R. Munich, to whom he showed the papers. A brief examination of the documents showed the latter their true nature, and he at once telegraphed to the British minister at Washington, who in turn telegraphed to the American minister at London, and in a short time answer was returned that young Stewart was heir to an enrolled fortune amounting to $53,000,000 in gold, deposited in the Bank of London, and equal to about $77,000,000 in American currency. This fortune has been lying in the bank for some six generations and has thus increased to its present vast proportions.

Young Stewart's identity as the legal heir to this vast possession has been fixed beyond doubt, and he will receive the first instalment of about $3,000,000 during the present month. What effect the sudden possession of such immense wealth will have upon the mind and character of a young, uneducated, and inexperienced boy remains to be seen. Stewart appears to have a large share of sturdy common sense, a well-balanced thought uncultured mind, and considerable natural shrewdness, and if he is fortunate enough to escape the wiles of the human sharks who will be attracted by the glitter of his gold, may soon learn to use it for the benefit of his fellow men, and the still further enrichment of himself. Mr. Munich has furnished young Stewart with a traveling companion, a shrewd and talented young railroad engineer named Johnson, whose knowledge of the ways of the world will be a safeguard against the temptations of designing persons.

NATIONAL DEBT PAYMENT.

The Radical papers will keep up their great ado, about the enormous decrease of the National debt under the sound and economical management of the illustrious modern financier, Secretary Boutwell. According to their representations a person, not otherwise posted, would naturally be led to suppose that there is but little left already of that prodigious mountain of debt, of which so much has been said and more been *felt* by the American people, and that there is a good prospect of our waking up some fine morning and finding the whole burden gone.

Such, however, is not the case, nor is it at all likely to be. The debt is just as much a fixed fact as it was before the valiant Boutwell attacked it with his slate and pencil. Figuring fails to remove it. With all the vast amount of revenue which has been received since the present Administration came into power, which is admitted on all hands to have been unprecedentedly and unexpectedly large, the National debt at the present time, taking Boutwell's own figures and adding the $62,000,000 of Pacific Railroad Bonds, which Mr. McCulloch always included, is as large as it was on the first of March last, within the small amount of two million dollars.

But this is not all which should be borne in mind. For the uncancelled bonds which he holds in the Treasury, to the extent of some $60,000,000, Mr. Boutwell has paid about $12,000,000 more than their holders were entitled to by the law under which they were issued; so, that on the whole, while bondholders may be enriched by Boutwell's financiering, and may have ample cause to rejoice therein, the nation the great mass of the people are being impoverished thereby, and are "out of pocket" thus far by his management, in the snug little sum of ten millions.

Such is the pre-eminent merit of the Boutwell policy.—*People.*

SINGULAR DIRECTION OF EMIGRATION.—The crowding of the Chinese into this country presents a very remarkable piece of emigration statistics, but the greatest curiosity of all is that line is the movement of Irish men and women going from the south of Ireland to make their homes among the Arabs and Berbers of Algeria. The Cork Constitution says that over a hundred have already booked themselves for Bona, in a steamer chartered by the French Government. They are offered a free passage, and some land when they arrive.

From Rev. C. H. WIER formerly State Supt. of Education.

BRYSON, TENN., Oct. 14, 1869.

I had seen by the papers what had been done by the Board of Education in North Carolina and was glad. I had ample reasons for my former recommendations in the use of the books in our schools.

These Books are Used by the Best Schools in the State.

Late Testimonials in Brief.

It affords me great pleasure to bestow on them my heartiest commendation. They are vastly superior to any other books of the kind I have yet seen.—W. H. WEATHERLY, Prin. Class. and Math. School, Elizabeth City, Oct 25, 1869.

Send me ten Davies' Intellectual Arithmetics for introduction. They are superior to any I have seen.—W. F. ENGLISH Mount Olive, Oct. 20, 1869.

I intend using the same books in my school as those used in the Common Schools. * * I am already using Monteith's Geographies.—JOHN D. JOHNSON, Yadkinville, Sept. 20, 1869.

I am and have ever been an earnest advocate of uniformity in school books. The Board recommendations—Arithmetics and Geographies—are the best that could have been made.—H. H. SMITH. Lincolnton, Sept. 28th, 1869.

Because these books are adopted by the State Board, as well as for the merits of the books themselves, we wish to introduce them, and use them exclusively in our school.—REV. S. C. ALEXANDER, Charlotte, Oct. 11, 1869.

Introduce "Nat. Philosophy" received. Am struck with its superiority to the other in many respects. As a class is waiting substitute it in my order Steele's Philosophy for first introduction.—O. W. JEWETT, Wilmington, Oct. 13, 1869.

DAVIES' Mathematics was adopted by me in 1858, and up to this time I have examined no work superior to them. I have examined McNally's Geography and Peck's Gamut's Natural Philosophy. I consider them most excellent works and shall put them into my boys' hands at the earliest period.—J. E. DUDGEON, Prin. Male Academy Warrenton.

It is my purpose to introduce Monteith's (No. 3) into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works (Monteith and McNally) seem to me to be admirable.—Rev. ALBERT SMEDES, D.D., Rector of St. Mary's, Raleigh.

The system of Geography—Monteith and McNally—I am well pleased with.—Rev. WM. S. LACY, Raleigh.

DAVIES' Arithmetics, Monteith's Geographies and the National Readers are too well known to require a word from me. Monteith and Davies are the best that I am acquainted with.—Prof. FRANK VAUGHAN, Elizabeth City, Oct. 11 1869.

I have waited patiently for the adoption by the Board of Education of this State of the books to be used in the public schools, and am much pleased to find that so many have been selected from the National Series.—Rev. W. L. MILLER, Charlotte, Oct. 1, 1869.

Am much pleased with both the Spellers and all the readers; and as to the Series of Geographies, I have long used no others when these could be obtained.—Dr. WM. B. HARRELL, Prin. High School, Snow Hill.

The introduction of so much valuable matter on the subjects of Physical Geography and Geology, and in a form so simple and intelligible makes it, (Monteith's Intermediate Geography) in my judgment, a charming school book.—Col. WM. BINGHAM, Prin. Hillsboro School.

I design introducing McNally's Geography and Davies' University Arithmetic.—DR. CLOSE, Prin. Durham Academy.

Will introduce the University Arithmetic next term. An admirable work.—M. L. LOVEL, Prin. Pleasant Hill Seminary, Newton.

Monteith's Geographies are excellent works, and I shall introduce them into my school.—CHRISTOPHER IVEY, Prin. Auburn Academy.

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.—Prof. WM. A. GRAHAM, late Hillsboro' Military Academy.

I have introduced your National Series of Readers. We find them to be excellent, just suited to our purpose. With Davies' Mathematical series we have been long familiar, and can find no good reason for changing them. In the Primary Department we have Monteith's Geographies.—Rev. G. D. BERNHEIM, Prin. Female Seminary, Mount Pleasant.

The National Series of Readers and Spellers are the best with which I am acquainted. I need henceforth has no others in my school. I use Davies. I consider his works incomparably superior in many respects. Monteith's series afford a gradual but thorough and systematic progression.—Prof. JOS. H. FOX, President Stantonsburg scientific High School.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography.—Prof. W. C. KERR, State Geologist of North Carolina.

Mr. Taylor Johnson Olive's Chapel, has introduced the National Readers, Monteith's Geographies, Davies Arithmetics, Clark's Grammars, etc.; Mr. John Franks, Grove P. O., has introduced the National Series throughout; Mr. W. A. Branch, New Hill P. O., uses the National Series throughout; Mr. Adolphus Rogers, Green Level P. O., uses the National Reader, Copy Books, Monteith's Geographies, and Tora's Grammar; Mrs. Emma Bingham, Cary P. O., uses the National series; *i. e.*, H. C. Olive, New Hill P. O., introduced Monteith's Geographies There are now at least 250 pupils in Wake and Chatham counties who are daily using the National Series of books, within my knowledge.—Prof. W. H. MERRITT, Chatham county, Sept. 14, 1869.

I am glad to learn that some of your books are to be introduced into our State Schools.—Prof. J. M. M. CALDWELL, Greensboro' High School, Oct. 23, 1869.

Distinguished Editors and Critics Praise Them.

The Series must prove acceptable. The structure of language is beautifully exhibited.—Presbyterian *Presbyterian.*

This firm will allow no competition in the price of books published by them which are among the best in the state.—Statesville *American*, 1868.

Have a reputation for merit unsurpassed.—Statesville *American*, 1869.

Peculiarly adapted to supply the wants we have long felt.—Greensboro' *Patriot.*

Have acknowledged superiority by the most competent judges.—*Western Sentinel.*

Davies is excellent in the first degree.—Wadesboro *Argus.*

Are excelled by none of the many used, and they are superior to most of them.—*Southern Journal of Commerce.*

When we examine the bright pages of the National Series, and think how we groped along the dry and uninteresting "task" of our boyhood, we are constrained to be envious of the happy pupils of the present.—*Wilmington Post.*

The National Series has attained probably a higher reputation than any other complete series of School Books now in existence.—*Wilmington Herald.*

THE SENTINEL.

CITY AND STATE ITEMS.

TUESDAY, NOVEMBER 16, 1869.

☞ THEO. N. RAMSAY, as Business Clerk, is authorized to make contracts and give receipts, &c., &c.

NEW ADS.—Those not noticed elsewhere are,

S. Kline and Co., large stock Dry and Fancy Goods, Clothing, Furnishing Goods &c., with a fine stock of Glass and China Ware.

Lost papers, W. H. Cunninggim; the account book has been found in or near a stable, the other papers will probably be found thrown out in the same way.

THE LEGISLATURE.—The arrivals by the the trains last night will probably swell the number of members of each House of the General Assembly up to the quorum point, so there will be an organization to-day. But it is not likely that much will be done this week, as thanksgiving occurs on Thursday; the Horse Fair on Wednesday; and nothing much is ever done on Saturday.

THAT NEW BUILDING.—Strangers in the city, passing up Fayetteville Street, are struck with the fine new building at the corner of Fayetteville and Martin streets, and the question is constantly ask, What building is that? We are not surprised at the attention it attracts, because it is the first building of the kind ever erected in Raleigh, if not the first in the State, and presents a remarkable feature in architecture. It is not our purpose to go into a lengthy and learned description of this building, (which we might do, much to the edification or outsiders,) but we will state, merely as an item of news, that the building is being erected for our enterprising townsman, B. P. Williamson, Esq. It was designed by Mr. Appleget, the artist and architect, whose office is over Douglas Bell's Family Grocery, on Fayetteville Street; Mr. Thomas Briggs, architect and builder, is the contractor, and the work is done under the immediate supervision of Mr. Henry A. Kaith, one of our native mechanics.

The style of this building is French, and known as the Mansard style, and is coming much into fashion in this country, for suburban and country residences, and is very pretty.

HANDS HARD UP.—We understand that Treasurer Dave was regularly besieged yesterday by the hungry hands, clamoring for mileage, and swearing they must and would have money. Dave was reluctant—the hands hungry and seedy—one poor fellow without shoes except an old pair of India-rubbers,—urgently demanding their mileage. We suppose that many of them having spent what they got for *per diem*, mileage and bribes, at the last session, are in that interesting condition, known among some trades, as being "*strapped*." Dave must have compassion on them and let them have a little money—that's what they came for.

Of course all are not in as tight a place pecuniarily as the above scene indicates, we only state the fact as it occurred in regard to some of them.

"LET US HAVE PEACE."—Peace, based on the eternal principles of Truth, Justice and Religion, is likely to be permanent, and when all nations and all men are brought under the influence of these holy principles, the noise of war will cease in all lands, and peace reign throughout the earth. It requires no extraordinary stretch of faith, in those who admit the divine authenticity of the Bible, to believe that such a time will arrive; and that it is to be brought about in part by human instrumentality.

Robert Douglas, a member of the Society of Friends, who is represented as a fine and able speaker, will deliver an address on the subject of Peace in the ——— Church, on Wednesday night, admission free. The Speaker is appointed and sent out by the American Peace Society, and has been highly spoken of as an able Lecturer wherever he has appeared.

TICKETS FOR THE FAIR.—We acknowledge the reception from Capt. T. F. Lee, of tickets to the Horse Fair, on to morrow and Thursday. The price of tickets of admission is the same as those to the Agricultural Fair, and can be had at the Yarborough House and the Book Stores. In addition to the other arrangements, we learn there will be refreshments on the grounds for those desiring them, each day.

A BATTLE IN SALISBURY.—We learn from the *Examiner* that Col. Thos. B. Long, peace Commissioner to Chatham and Orange, at ten dollars a day and the rank of Colonel, returned to Salisbury last Friday, and proceeded to kick up a bobbery with the senior editor of the *Examiner*, for something that had appeared in the columns of that paper during the time the Colonel was splurging about Pittsborough in a fine two horse carriage for the benefit of the State. Stewart, the editor, gave the Colonel a small bit of a caning, but was prevented from finishing up the job in a "neat and workman like manner," by a crowd of the Colonel's hangers on, who, it appears from the report, were in readiness for the emergency.

We suppose there is to be a legal investigation, of the affair, and that we shall hear more from it hereafter.

Brown's Bronchial Troches, when allowed to dissolve in the mouth, have a *direct* influence to the affected parts; the soothing effect to the mucous lining of the whidpipe allays Pulmonary irritation and gives relief in Coughs, Colds and the various Throat Affections to which public speakers and singers are liable.

THE NORTH CAROLINIAN, of Tarborough, No. 1, Vol. 1, new series, is on our table, clearly printed, at the office of Dancy, Thigpen & Co., Thomas J. Lee, business manager. It is right side up in politics.

The Governor has appointed E. S. Woodford Timber Inspector for Wilmington, in place of the man, Dupong, who stole the stores from the Cuban ship, while in charge of that vessel.

Visitors to the Fair at Wilmington, had begun to arrive last Saturday.

SALE OF CITY LOTS.—Our readers are requested to keep in mind the sale of city lots on Saturday, as advertised in our columns. As something has been said in regard to the title to this property, the following note is published, which will set the matter right on that point:

OFFICE OF N. C. LAND COMPANY,
Raleigh, November 10, 1869.

MR. EDITOR:—Please publish the following letter to remove all doubts and fears of those about to purchase homes in the New Town of Kingsland, as regards title:

RALEIGH, N. C., Nov. 9, 1869.

In order to quiet any apprehension which some persons may have, as to my claiming a Homestead on the property recently purchased by the North Carolina Land Company, from J. P. H. Ross, I can inform the public, that my petition for a Homestead does not embrace any part of said land, purchased by said Company, nor is it my intention to claim any part thereof as a Homestead exemption.

JOHN F. HUTCHINGS.

Test, QUENT BUSBEE.

AMONG the members of the Legislature now in the city, we had the pleasure of meeting Col. Ham Jones, Senator from Mecklenburg. Col. Jones takes the place of the lamented Judge Osborne.

We congratulate the people upon their selection, they could not have chosen a more worthy and creditable representative.

Some rogue entered the hardware Store of Mr. C. A. Hart, in Newbern, on Saturday night last, through an upper window, but was discovered and made his escape before committing any depredation.

BROWNLOW STICKS TO HIS COLORS.—Senator Brownlow says in a private letter: "Should I live to get to the Senate in December, my friends and enemies alike will know how little truth there is in the statement that I have forsaken the republican party, joined the democratic, or aided in seeking the election to the Senate of Andrew Johnson."

The Shivering Season.

It is impossible to suppose that any human being can consider an attack of Fever and Ague a light visitation. And yet thousands act as if such a calamity was of no consequence; while thousands who are actually suffering from the distressing complaint neglect to adopt the certain means of cure. It ought to be known in every locality subject to the scourge, or which is infested with remittent fever, or any other epidemic produced by malaria, that HOSTETTER'S STOMACH BITTERS taken in advance or at the commencement of the unhealthy season, will fortify the system against the atmospheric poison which generates these distempers. This admirable invigorant—harmless, agreeable, and possessing rarer medicinal virtues than any other tonic at present known, will break up the paroxysms of intermittent or remittent fever in from forty-eight hours to ten days. Such is the universal testimony from districts where periodical fevers have been combatted with this powerful vegetable Chotagogue. In a thievish neighborhood wise men bar their doors and windows, yet strange to say if the same neighborhood happens to be pervaded by aerial poison they seldom take the trouble to put their bodies in a state of defence against the hostile enemy, shivering victims endeavoring in vain to warm your blue hands over the fire or containing with the fever that follows the chill; remember that HOSTETTER'S BITTERS is an *absolute, speedy* and *infallable specific* for your distressing malady

CALIFORNIA.

SAN FRANCISCO, Nov. 13.—The eastern bound Western Pacific train and the Alameda Ferry train, each travelling 25 miles an hour, collided. Eleven dead were taken from the wreck. Two nations would ever reverence his name which form another bond of union between England and America."

The American Bank Note Printing Company have resumed printing federal currency, examination into alleged irregularities having been concluded.

The examination of the affairs of the National Bank Note Company commenced to-day; their operations are suspended until the completion of the investigation.

The Tribune says editorially: "The first testimony in the drawback frauds, was taken on Saturday and so far opens the case that the public may know the principal conspirators. These frauds have been going on for five or six years and the parties in the work must have robbed the Treasury of a vast amount.

Samuel J. Bleichford was the leading spirit, his associates being Campbell & Co., Custom House brokers, S. Hannigan and F. A. Howard who are in the Revenue Bureau at Washington. The most important witness thus far is Ackerson Kern, who was familiar with all the transactions and was an interested party to some extent. He was arrested last January but not seeing the justice of suffering alone while the leading offenders went free, he told the whole story to the District Attorney. Several parties, whose names are withheld are under arrest, and the Judge is determined to sift the matter thoroughly.

The examination is adjourned until next Friday.

The Minister favored the question of the abolition of slavery, and said the question of compensation to owners would soon be solved in a way to cause the least injury. Answers were elicited by interrogatories from Porto Rican deputies. Subsequently the Minister said that the government intended to treat Porto Rico as a Province, not as a Colony, and that he agreed with abolition and indemnification for losses.

THE UTLEY

COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500-pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons waiting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS. H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

Amount of Assets $12,000,000.00.

DIVISIBLE SURPLUS $2,675,999.48,

AND CONSTANTLY INCREASING.

ALL THE SURPLUS OF THE COMPANY DIVIDED AMONG THE ASSURED.

DIVIDENDS DECLARED AND PAID ANNUALLY ON THE CONTRIBUTION PLAN.

ALL POLICIES (AFTER TWO FULL PAYMENTS) NON-FORFEITABLE, AND SO EXPRESSED ON EACH POLICY.

No Restrictions as to Residence and Travel in the United States.

RATES LOWER THAN ANY OTHER COMPANY THAT PAYS DIVIDENDS TO POLICY-HOLDERS.

IT ISSUES ALL THE VARIOUS FORMS OF LIFE AND ENDOWMENT POLICIES.

LOSSES PAID PROMPTLY IN CASH.

LIST OF LOSSES ACTUALLY PAID BY THE ÆTNA LIFE INS. CO., AT THE BRANCH OFFICE, IN RALEIGH, BY THE HANDS OF W. H. CROW, GENERAL MANAGER OF THE STATE AND PART OF VA.

"	22,304	15,00

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16,34
EQUITABLE,	17,44
NORTH AMERICA,	21,16
BROOKLYN,	21,09
UNIVERSAL,	27,34
JOHN HANCOCK,	18,27
THE NATIONAL,	63,49
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 589 policies, received an income of seventy-eight thousand dollars, and possessed nett assets amounting up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,237 new policies, more than any other Company except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."
